

K-Love serves my community and myself in a variety of ways. We not only have the best radio station to listen to, but K-Love serves our community through local activities and services that benefit several organizations. My area alone has over 100,000 listeners that become actively involved in organizational services that help our community. I am unaware of any radio station that would be a substitute should K-Love be displaced. A family/Christian radio station the caliber of K-Love would be very difficult to replace.
